

PRECISION ENGINEERING & ORIGINAL EQUIPMENT MANUFACTURE

Shamrock Industries is a company that continues to satisfy a growing number of industry sectors with their Repairs & Maintenance, Precision & Production Machining, Original Equipment Manufacture & Project Management requirements.

To support this the company has made a substantive investment in manufacturing equipment, tooling and technology. We are committed to ensuring client's requirements are completed to exacting standards and in a timely manner.

As part of our ongoing operations, the company keeps fully abreast of the latest developments here and internationally. Our highly competent team of tradespeople work within an ISO based Quality Management System.

Currently our technical and manufacturing facility includes:

- Full CAD/CAM capability
- Internet (Jetstream) connection for File exchange
- CNC Machining Centre (Milling) & Lathe (Turning)
- Comprehensive Milling, Turning, Grinding & EDM capability
- Equipped for Light/Medium Fabrication work

This means, as a valued client of Shamrock Industries, you will enjoy the benefits of working with a company that can satisfy all your requirements from and including:

- Parts repair, maintenance or replacement
- Precision machining services
- Production machining
- Contract manufacturing
- Original Equipment Manufacture commencing from concept development through custom plant design, manufacture and project management to completion of "turn-key" commissioning.

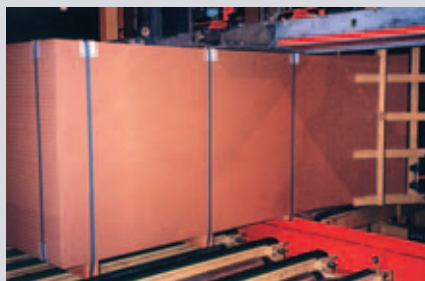

Continued on Page 2
